

MATERIAL WORLD

LITE PAPER

LIVE YOUR BEST LIFE

OVERVIEW

Material World is a unique ONFT (omni-chain NFT) collection meant to gamify the omni-chain experience by encouraging the accumulation of material possessions. The mint of the 7,777 characters will happen on Solana, but each ONFT's true potential can only be realized by traversing it to other chains. Minters will start with an empty plot of land and move across chains to accumulate the trappings of our material world: clothing, a house, a car, a boat, and an aircraft.

ASSETS

The Material World ONFT collection will begin on Solana, where users will name and mint their initial ONFT character. In addition to a custom name, characters will be able to acquire 5 different types of assets, each of which can only be found on its specific chain.

Name: Solana

House: Ethereum

Car: Binance Smart Chain

Boat: Polygon

Aircraft: Avalanche

Clothing: Fantom

Characters may visit these chains in any order to earn the respective asset.

Each asset will also vary in terms of quality and rarity, making some attributes more valuable than others. For example, when you go to Ethereum to get your house you may receive a cardboard box, a luxury mansion, or something in between.

REROLL

What would the Material World be if you couldn't gamble on getting a better house or boat? If ONFT owners don't like the asset that their character received, they can send their character back to the appropriate chain and reroll for a new one for 0.25 SOL. Don't like your car? Go to Binance Smart Chain and get a new one. Think your clothes don't match your brand? Reroll on Fantom!

RENAME

What if your belongings don't fit your name or you bought an ONFT on a marketplace and want to make it your own? Fear not! In addition to rerolling your assets, holders can also rename their character for 0.25 SOL by traveling to Solana.

WEALTH SCORE

Every asset has a wealth score based on the monetary value and perceived worth of the item in our material world. The sum of all of your assets' scores gives your ONFT its total wealth score. You can reroll assets to try and increase or decrease your wealth score. Note: Wealth score and rarity are NOT directly correlated. Some of the rarest items are the biggest pieces of junk.

LEADERBOARDS

Material World will keep track of 3 leaderboards displayed to the public on the materialworld.io website.

Wealth Leaderboard: The ONFTs with the highest combined wealth scores

Degen Leaderboard: Completed ONFTs (have all 5 assets) that have the lowest combined wealth scores

Traveler Leaderboard: The ONFTs that have traversed chains the most number of times

TRAVERSE CHAINS

All Material World ONFTs will be able to move across blockchains thanks to [LayerZero](#). LayerZero is an omni-chain interoperability protocol that allows for trustless communication between different blockchain networks. It relies on two independent off-chain entities, an Oracle and a Relayer, to ensure the validity and secure delivery of messages across chains. After mint-

ing, collectors can traverse their ONFTs to other chains right from the Material World website. Don't worry travelers, when ONFTs traverse chains, all of the metadata and attributes are retained so you'll keep all of the assets you've accrued!

Note: Using this protocol does require a gas fee (calculated based on the destination chain's gas) paid for in the origin chain's token.

FUTURE CHAINS

We plan to add additional unlockable assets to these ONFTs as more and more chains are supported by LayerZero. While we don't want to get ahead of ourselves, it is likely that the next chain will be Sui by Mysten Labs.
